

I am writing to let you know of the impact KLOVE Radio station has had in my life and in the community. There are very few radio stations that pass along a message of kindness, love, and selflessness. My community is in desperate need of this message. KLOVE is like a life saver for a sinking ship. Thousands of people benefit from the uplifting message. I know that the FCC spends a considerable amount of time trying to filter the airwaves- with KLOVE there is no need to filter. By taking KLOVE off the air it would take away a light of love and hope from thousands of people. We just can't afford for this message to not be heard. I pray you will think about keeping KLOVE as a priority FM station. This is not just a radio station- there are lives that are depending on it.

Thank you.
